HLB Gross Collins - Office Interiors

Atlanta, Georgia

Project Name:

HLB Gross Collins: Office Interiors and Renovation
3330 Cumberland Boulevard, Suite 900
Atlanta, Georgia 30339

Services performed:

Architectural, interior, mechanical, plumbing, and electrical design.

Project Summary:

HLB Gross Collins obtained Millard, Inc.'s services to design their new 23,500 SF office space on the top two floors of a 10-story tower in the Cumberland area of Northwest Atlanta. The clients wanted a truly 'transparent' office where every office is provided with natural light and views to the exterior. Millard, Inc. grouped all of the storage and utility spaces around the building's central core and created suites of glass fronted offices that allowed light to stream in, but also provided noise separation. The main focal element is the spiral lobby stair that acts as the connecting portal between the two floors.
